Seamlessly integrate BrowserStack into your setup

We work with the tools and frameworks you use. Test development code from Visual Studio and beta
apps from App Center. Run automated tests on every commit from your CI/CD pipeline, and get test
results directly in Jenkins and Slack. Report bugs directly to Jira, and reproduce them with a click.

View all integrations

Ready to try it out?

Over 2 million developers and 50,000 teams test on BrowserStack. Join them.
